

# Hi-TEC FINISHES

## For Increased Hi-Tec Performance

- *Header Tooling*
- *Form Punches & Pins*
- *Die Inserts*
- *Trim Dies*

*New Hi-TEC Finishes make Punches  
& Tooling last on average 30-40% longer*

*Hi-TEC Finishes is the incredible process that  
creates a 4-6 micron mirror smooth finish, even  
on hard-to-polish tooling. Hi-Tec process uses  
an exclusive, high-speed multi-cone technology  
with a unique diamond abrasive medium to  
eliminate the need for manual polishing.*
